FREED CalAIM ECM & CHW

Clinical Consultant Job Posting/Role Description

Part Time Clinical Consultant (LCSW or RN preferred)

FREED is looking for a part-time Clinical Consultant to support FREED's CalAIM Enhanced Care Management (ECM) & Community Health Worker (CHW) Programs.

Position Summary

The Clinical Consultant provides clinical oversight and consultation for the organization's CalAIM Enhanced Care Management (ECM) and Community Health Worker (CHW) programs. Working collaboratively with ECM care managers and CHWs, the consultant supports high-quality, person-centered care through clinical guidance, review of complex cases, oversight of care planning, and review and approval of CHW referrals and care plans, as required by organizational policy and Managed Care Plan requirements.

Key Responsibilities

- Provide clinical consultation and guidance to ECM staff and CHWs on client care planning and service coordination.
- Review complex or high-risk cases and participate in interdisciplinary case consultation meetings.
- Review and approve CHW referrals and care plans, providing licensed clinician sign-off where required.
- Ensure licensed clinician consultation and documentation review activities are documented for quality assurance and audit readiness.

Qualifications

- Knowledge of interdisciplinary care coordination, social determinants of health and community-based services required.
- Licensed Clinical Social Worker (LCSW) or Registered Nurse (RN) preferred.
- Experience with Medi-Cal, CalAIM, Enhanced Care Management, Community Health Workers preferred.

Estimated Time Commitment

- Part-time contract position.
- Approximately **4–8 hours per month**, with flexibility based on member volume and program needs.

Application

- Please submit a cover letter and resume to jobs@FREED.org.
